

NO SMOKING POLICY

Entrepose Delattre Bezons Nigeria Limited (Ent DBN) is committed to providing a safe and healthy work place for all workers engaged in its activities and to protecting the environment in which they work.

Cigarette and tobacco smoking is dangerous to the health of the smoker and persons nearby and discarded cigarette butts can be a fire hazard.

Second-hand smoke is just as dangerous as directly inhaled smoke because it is completely unfiltered. This passive smoking can also cause diseases such as lung cancer, cardiovascular diseases and a range of respiratory symptoms.

DBN has adopted and implemented this No Smoking Policy for the protection of personnel and the environment.

The goal of this policy is not to limit individual choice to smoke but rather to restrict smoking in working environment, all company owned and operated buildings, workplaces and vehicles, except in clearly designated smoking areas.

This policy applies to all workers, visitors and subcontractors on company owned or controlled premises.
